

IM 35 Mark II

Letter Extractor

Rush incoming mail through the mailroom fast.

Inbound mail can be a company's most important asset. From payments and appraisals, to invoices and important communiqués, inbound mail needs to get where it's going fast. For companies that receive as few as 400 or as many as 1,000 pieces of mail a day, the *IM 35 Mark II* can make a big difference in terms of mailroom efficiency and economy. Neopost's innovative technology not only gives you the option of opening 1, 2, or 3 sides of an envelope, but can also automatically extract the contents for fast and easy routing.

Key Features:

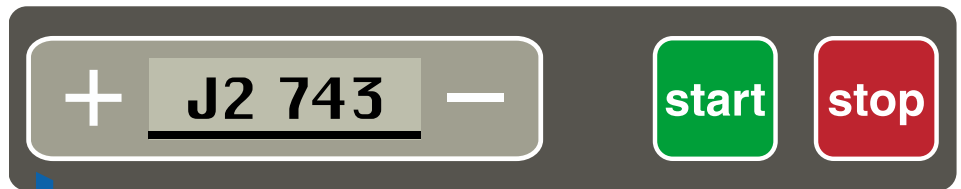

- 3 modes of operation:
 - Automatic extraction
 - Semi-automatic extraction
 - Letter opener mode – no extraction
- Handles mixed mail without presorting
- Hopper holds 300 envelopes
- Complete opening and visual check insures nothing is left inside envelope (optional empty envelope detector available)
- No formal training necessary
- Pays for itself with as few as 400 pieces of mail per day
- Eliminates waste
- Proven envelope opening technology

Valuable benefits:

- Automates task of opening incoming mail
- Eliminates chance of important documents or payments being damaged or destroyed
- Incoming mail is processed faster
- Fewer employee hours required
- Opened mail can be delivered earlier
- Neopost Price Protection Program available

Ergonomically designed workstation and chair available (conveyer not shown, also available).

Neopost IM 35 Mark II Control Panel – 4 buttons make operations fast and simple.
